IMPACT will personalize your schedule based on the detailed Registration you fill out, ensuring your schedule is fully relevant to your needs. We connect you with solution providers you have an active interest in and have requested an appointment with you or vice versa. We also offer an array of different speaker sessions throughout the day giving you flexibility on the educational content you wish to learn.

Our scheduling executives will send you your personal schedule two weeks prior to the event so there are no surprises. This allows you to have complete control over your schedule to make any changes necessary, so that your time is spent wisely during the Summit.

To review current speakers and educational content please visit our websites to see the most updated material.
